This software allows you to customize the V-Track to your preference. Just follow the instruction. When it asks you to enter "Mode" and "1,2,3,4,5", please note that these numbers correspond to the following modes as on the right picture. Mode 1: Only focus points are shown on screen. Mode 2: Also calculate the depth of field and other parameters, like iso, shutter, aperture and other parameters. Mode 3: Also calculate the depth of field and other parameters, like iso, shutter, aperture and other parameters. Mode 4: Also calculate the depth of field and other parameters, like iso, shutter, aperture and other parameters. Mode 5: Also calculate the depth of field and other parameters, like iso, shutter, aperture and other parameters. When you select the Mode, click OK. You may set other parameters when you open the "Oscar Editor" (e.g. for AF Speed). Let the software calculate the Mode and Mode 1 is the basic one. Enjoy it!
